computer science. Thu, 29 Nov 2018 01:44:00 GMT Proof Theory in Computer Science | SpringerLink - Proof theory has created new aims outside traditional mathematics, especially in connection with computer science. Topics such as the verification of correctness of computer programs are an outgrowth of proof theory. Natural deduction has led to the Curry-Howard correspondence and to connections with functional programming, and sequent calculus is often used in systems of automatic proof ...
